

**St Judes Road, Surrey, TW20 0DF**

**£1,850 pcm Guide Price**

This building was originally the cottage hospital and has recently been converted into six luxury apartments. The finish on these apartments is superb and they have kept as many of the original features as possible coupled with a contemporary finish. Flat six is a three bedroom penthouse apartment with three bathrooms, two en-suite and located on the first floor, as well as being let with communal parking. Situated in the heart of Englefield Green village, close to the shops and public green.

**AVAILABLE 14<sup>th</sup> February 2024 - UNFURNISHED**

Use this document to:

- Compare current ratings of properties to see which properties are more energy efficient

Estimated energy costs of dwelling for 3 years: £ 1,371

**Estimated energy costs of this home**

|               | Current costs      | Potential costs    | Potential future savings |
|---------------|--------------------|--------------------|--------------------------|
| Lighting      | £ 189 over 3 years | £ 189 over 3 years | Not applicable           |
| Heating       | £ 786 over 3 years | £ 786 over 3 years |                          |
| Hot Water     | £ 396 over 3 years | £ 396 over 3 years |                          |
| <b>Totals</b> | <b>£ 1,371</b>     | <b>£ 1,371</b>     |                          |

These figures show how much the average household would spend in this property for heating, lighting and hot water and is not based on energy used by individual households. This excludes energy use for running appliances like TVs, computers and cookers, and electricity generated by microgeneration.

**Energy Efficiency Rating**

Very energy efficient - lower running costs

Not energy efficient - higher running costs

The graph shows the current energy efficiency of your home.

The higher the rating the lower your fuel bills are likely to be.

The average energy efficiency rating for a dwelling in England and Wales is band D (rating 60).

The EPC rating shown here is based on standard assumptions about occupancy and energy use and may not reflect how energy is consumed by individual occupants.
